

Poster Nr	PaperID	Abstract Title	Author	Affiliation
1	185	CryoTop Evolution - CryoSat-2 Swath Elevation, Digital Elevation Models, Rates of Elevation Change Products	Gourmelen, Noel	University of Edinburgh
2	199	Greenland Surface Elevation Validation and DEM/Retracker Accuracy Assessment from in-situ GPS measurements	Overly, Thomas B.	Dartmouth College
3	126	Determining Arctic Freshwater Fluxes with Cryosat-2	Andersen, Ole Baltazar	DTU space
4	170	The CryoSat SciEnce-oriented Data ANalysis Over Sea-ICE Areas Project	Fabry, Pierre Laurent	ALONG-TRACK SAS
5	157	Cryosat2 Assessment of Inland Water Height Retrieval over River Networks	Berry, Philippa A. M.	Roch Remote Sensing
6	135	CryoSat SAR/SARin Level1b Products: Assessment of BaselineC and Improvements towards BaselineD	Scagliola, Michele	Aresys
7	179	A Digital Elevation Model Of Antarctica Derived From 6 Years Of Continuous Cryosat-2 Observations	Slater, Thomas	University of Leeds
8	102	Broadview Radar Altimetry Toolbox	Garcia-Mondejar, Albert	isardSAT Ltd.
9	144	Improved Oceanographic Measurements with CryoSat SAR Altimetry	Cotton, David	Satellite Oceanographic Consultants
10	158	Improving CryoSat-2 Elevation Change Estimates using TanDEM-X	Helm, Veit	Alfred Wegener Institut
11	134	CryoSat Interferometer: End-to-End Calibration and Achievable Performance	Scagliola, Michele	Aresys
12	149	Improving the Short Wavelengths of Mean Sea Surface using CryoSat Data	Schaeffer, Philippe	CLS, France
13	180	Global Evaluation Of The New CryoSat Geophysical Ocean Products	Calafat, Francisco	National Oceanography Centre
14	187	Optimizing Spectral Windows For Processing CryoSat SAR Mode Data Over Sea Ice	Smith, Walter H F	NOAA Lab for Satellite Altimetry
15	153	Analysis of CryoSat-2 SAR data over ice sheets and algorithm development in preparation for Sentinel-3	McMillan, Malcolm	University of Leeds
16	193	Tropical Cyclones Above Australia During Last 12 Years	Vanina-Dart, Liudmila	Space Research Institute
17	111	An Assessment of Arctic Radiative Feedbacks in Coupled Ocean-Atmosphere Models	Soden, Brian	University of Miami
18	141	Comparing Coincident IceBridge and CryoSat-2 Observations Over Sea Ice	Yi, Donghui	NASA/GSFC
19	139	Transponder Calibration in SAR/SARIN Altimetry: from CryoSat-2 to Sentinel-3	Garcia-Mondejar, Albert	isardSAT Ltd.

20	138	Evolutions of the Cryosat-2 Instrument Processing Facility (IPF)	Mantovani, Pier-Luca	Advanced Computer Systems ACS S.r.l.
21	175	Analysis of the Complete Bouguer Gravity Anomaly and the Parker–Oldenburg Inversion for the Three-Dimensional Moho depth Model in the Central Alborz Structural Zone, Northern Iran	Parang, Soran	University of Tehran
22	137	Arctic Lead Detection using a Waveform Unmixing Algorithm from CryoSat-2 Data	Lee, Sanggyun	Ulsan National Institute of Science of Technology
23	192	Coastal Altimetry from CryoSat-2	Fenoglio, Luciana	University of Bonn
24	125	The Norwegian Coastal Current Observed by CryoSat2 SARIn Altimetry	Idzanovic, Martina	MNBU
25	146	Finite-element GIA Estimations For Antarctica Based On A New Lithospheric Model	Blank, Bas	TU Delft
26	150	Validation of CryoSat-2 Performance Over Arctic Sea Ice	Di Bella, Alessandro	Technical University of Denmark / National Space Institute
27	160	GOCE and Cryosat-2 for Dynamical Coastal Topography and Tide Gauge Unification	Andersen, Ole Baltazar	DTU space, Denmark
28	145	Sensitivity of NEMO-LIM3 Coupled Ice-Ocean Model to Initial Sea Ice Thickness States from CryoSat-2	Sallila, Heidi	Finnish Meteorological Institute
29	203	CONFORM: CryOsat Netcdf FORmat Migration for Ice and Ocean Products	Mantovanie, Pier-Luca	ACS
30	121	Assessing IceBridge Snow Depth Retrievals over Arctic Sea Ice Using Estimates from Multiple Sources	Kwok, Ron	Jet Propulsion Laboratory
31	148	Quality Assessment of CryoSat-2 Ocean Altimetry	Naeije, Marc	Arospace/TU Delft
32	168	A Synthesis of Snow Depth Observations in the Arctic: Towards a Seasonal Snow Depth Product for CryoSat-2	Webster, Melinda	NASA Goddard Space Flight Center
33	178	Evolution of Fast Ice Thickness from Four Years of Cryosat-2 Data, a Case Study in Scar Inlet, Antarctica	Moussavi, Mahsa Sadat	National Snow and Ice Data Center (NSIDC)
34	161	Tuning SAR Processing to Measure Sea Ice Freeboard	Fleury, Sara	CNRS, France
35	140	Squeezing SARIn Capabilities for Complex Scenarios: L1 & L2 Processing Improvements	Garcia-Mondejar, Albert	isardSAT Ltd.
36	119	Retrieving Surface Soil Moisture from Cryosat2 Data in Arid and Semi-Arid Terrain	Berry, Philippa A. M.	Roch Remote Sensing
37	164	Multi-Sensor Radar Measurements of Snow on Sea Ice near Eureka, Nunavut, Canada	King, Joshua	Environment and Climate Change Canada
38	194	Comparison of Cryosat-2 Altimeter Data with ICESat-2 Simulator (SIMPL) Data over Western Greenland Outlet Glaciers	Medley, Gavin Christopher	University of Colorado Boulder
39	205	Elevation change of Antarctic ice shelves from 2011 to 2016 using CryoSat-2	Han, Daehyeon	UNIST
