Collaborative Ground Segment in Poland

Beata Mikołajek-Zielińska
Ministry of Science and Higher Education

Aims for Ministry of Science and Higher Education in 2017

- **to ensure an access to Copernicus data for all Polish entities**
- **to sign the agreement with ESA to become a participant of Collaborative Ground Segment (planned 6 June)**

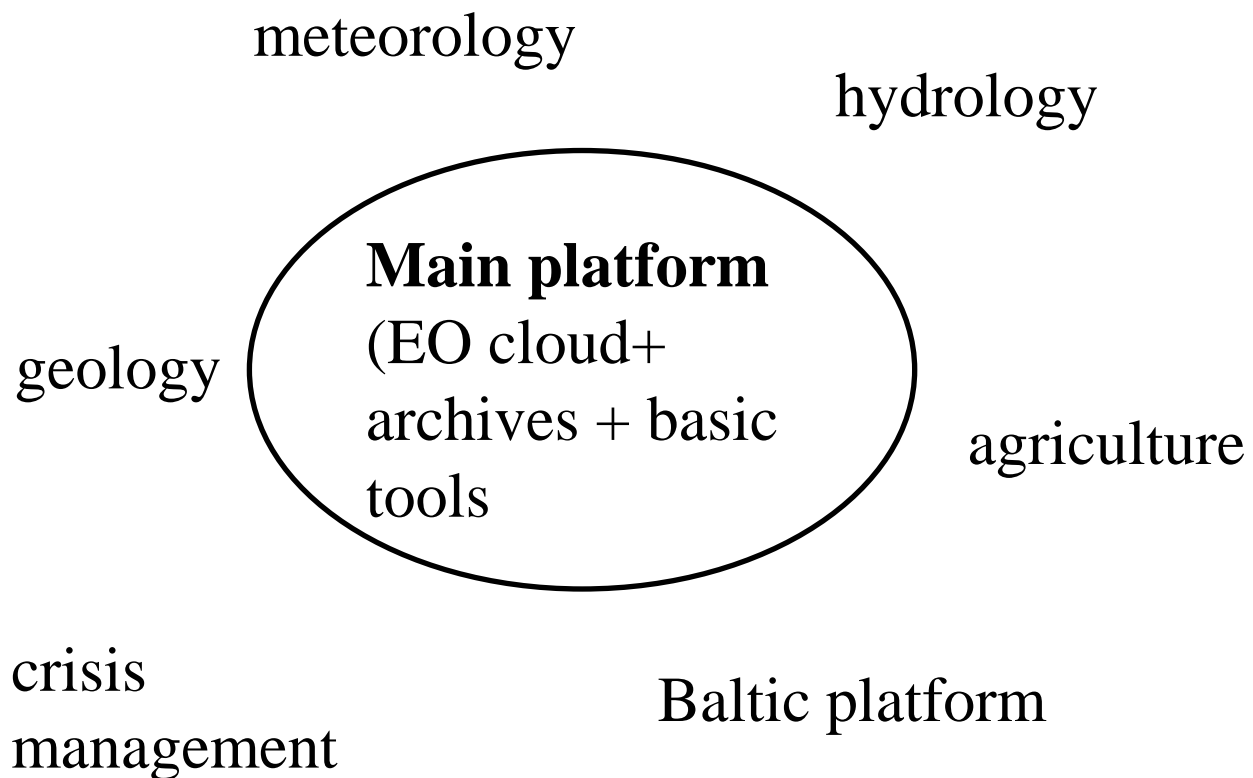

Information on CGS

- Data: all available, especially from Sentinels;
- Available tools;
- Scope: Poland, Baltic Sea region and about 500 km from borders, special areas for request;
- Access to NRT/QRT data: in the case of crisis like floods, fires, great events security, etc

Concept

Ministry of Science
and Higher Education

Republic of Poland
